Board members considered the 2021 Replacement Educational Programs and Operations Levy and its importance to the District. Discussion was held on costs of the levy amounts and how many years the levy should include. Board discussion followed.

The recommended amount is $398,947. With the inflated assessed valuation, the cost would be estimated at $2.36/$1,000. The board would also like to continue running a one-year levy. The board will vote on the levy amount in the regular meeting. The levy is scheduled for February 9, 2021.

There was no public input on the levy amount.

The Chairman declared the meeting adjourned at 6:55 PM.
